## Notes

<sup>1</sup> The Indirect Cost Ratio (ICR) includes the investment manager's fees, estimated performance fee (if applicable), estimated expense recoveries and other indirect costs as a percentage of total average assets of the investment option as at 20 May 2019, but excludes indirect transactions and operation costs (see latest copy of the PDS).

<sup>2</sup> Past performance is not an indicator of future performance.

## Investment objective

Aims to provide long-term capital growth and regular income through investment in quality industrial and resource shares and to outperform the S&P/ASX 300 Accumulation Index (before fees and tax) over rolling three-year periods.

## Investment approach

The manager researches companies of all sizes using consistent share selection criteria. The priority is to select those companies that represent the best investment quality and are appropriately priced. In determining investment quality, investments are carefully selected on the basis of four key investment criteria: conservative debt levels, sound management, quality business and recurring earnings. The fund invests primarily in shares listed on or proposed to be listed on any recognised Australian exchange but may have up to 20% exposure to shares listed on or proposed to be listed on any recognised global exchange. Currency hedges may be used from time to time. Derivatives may be used in managing the fund.

## About the investment manager

Perpetual Investments is one of Australia's leading investment managers, with \$27.7 billion in funds under management (as at 31 December 2018). Perpetual Investments is part of the Perpetual Group, which has been in operation for over 130 years. By employing some of the industry's best investment specialists and applying a proven investment philosophy, Perpetual Investments has been able to help generations of Australians manage their wealth.
