## Notes

<sup>1</sup> The Indirect Cost Ratio (ICR) includes the investment manager's fees, estimated performance fee (if applicable), estimated expense recoveries and other indirect costs as a percentage of total average assets of the investment option as at 17 December 2019, but excludes indirect transactions and operation costs (see latest copy of the PDS).

<sup>2</sup> Past performance is not an indicator of future performance.

## Investment objective

Targets absolute returns with an annualised return objective of 5% above the RBA Cash Rate (before fees and tax) over rolling five year periods.

## Investment approach

Seeks to provide a return profile that has a low correlation (i.e. low relationship) with traditional asset class returns. Aims to generate positive returns in all market environments by reducing the majority of market risk and focusing primarily on capital preservation and out performance. The manager uses a relative value and a special situations strategy. Derivatives will be used to, amongst other things, leverage the portfolio and achieve a short position.

## About the investment manager

Ellerston Capital specialises in equity and alternative strategies. They have over \$5 billion in funds under management, including separately managed accounts (SMAs), wholesale funds and retail offerings for a range of financial advisers, institutions and individual investors. As a dedicated investment manager, Ellerston aims to do one thing exceptionally well: grow and protect clients' wealth through investing. Ellerston are passionate about creating value for clients by identifying investment opportunities and designing portfolios that perform over the long term.
