Recent option history

Please note this investment option changed from Perpetual to BlackRock on 9 June 2020

Notes

¹ The Indirect Cost Ratio (ICR) includes the investment manager's fees, estimated performance fee (if applicable), estimated expense recoveries and other indirect costs as a percentage of total average assets of the investment option as at 9 June 2020, but excludes indirect transactions and operation costs (see latest copy of the PDS).

² Past performance is not an indicator of future performance.

Investment objective

Aims to deliver returns that are 4-6% p.a. (before fees and taxes) above those of the S&P/ASX 300 Industrials Accumulation Index ex top 5 stocks by market capitalisation over rolling 3-year periods.

Investment approach

The manager applies a fundamental approach that is focused on bottom up analysis, where detailed research is conducted prior to any investment decision. It will invest in a concentrated portfolio of industrial shares generally excluding the top five shares by market capitalisation and resources shares. The fund will also generally not invest in any company that does not first pass the manager's five quality filters at the core of the investment process. The fund focuses on stocks with attractive growth and value characteristics. The manager uses its experience to build a concentrated portfolio of 20-40 stocks that have a balance of risk across all sectors.

About the investment manager

BlackRock helps investors build better financial futures. As a fiduciary to its clients, BlackRock provides the investment and technology solutions they need when planning for their most important goals. As of 31 December 2018, the firm managed approximately USD\$5.98 trillion in assets on behalf of investors worldwide.
