Investment objective

The primary objectives are to achieve attractive risk-adjusted returns over the medium to long-term, while reducing the risk of permanent capital loss.

Investment approach

The manager aims to find companies at attractive prices which have sustainable competitive advantages which translate into returns on capital in excess of their cost of capital for a sustained period of time. The manager will endeavour to acquire these companies at a discount to its assessment of the intrinsic value of the companies. The portfolio will consist of 20 to 40 investments. This option does not hedge currency risk.
