Investment objective

Aims to provide long-term capital growth and regular income through investment in quality shares of socially responsible companies and to outperform the S&P/ASX 300 Accumulation Index (before fees and taxes) over rolling three-year periods.

Investment approach

The manager researches companies of all sizes using consistent share selection criteria. The priority is to select those companies that represent the best investment quality and are appropriately priced. In determining investment quality, investments are carefully selected on the basis of four key investment criteria: conservative debt levels, sound management, quality business and recurring earnings. The manager utilises a strategy for screening ethical and socially responsible investments. The fund invests primarily in shares listed on or proposed to be listed on any recognised Australian exchange but may have up to 20% exposure to shares listed on or proposed to be listed on any recognised global exchange. In addition, the manager utilises a strategy for screening ethical and socially responsible investments. Currency hedges may be used from time to time. Derivatives may be used in managing the fund.

About the investment manager
