LifelIncome

- A guaranteed **regular income for life**
- **29 investment options** across all major asset classes
- **Ability to switch** at almost anytime
- Improved access to the **Age Pension and more**
- **4-star rating** by SQM Research and approved by Lonsec

1. Ratings relate to LifeBuilder and ChildBuilder investment bond products

Surge in the retiree population is caused by the great baby boom of the 1950s

Boomer's retirement mountain: Net annual change in Australian population 65+

1990s

65-and-over population increased by an average of around 40,000 per year¹

137,000 per year in 2026

65-and-over population reached 126,000 per year in 2021, expected to peak at 137,000 per year in 2026¹

1. Salt, B, 2021, "Turning point: the 2020s baby boom retirement surge", published in Firstlinks on 24 March 2021, <https://www.firstlinks.com.au/turning-point-2020s-baby-boom-retirement-surge>

An opportunity to design a comprehensive estate plan for your clients.

\$4.9 trillion¹

Total inter-generational wealth transfer opportunity with 18% of individuals holding Average Net Investable Assets of \$2.6 million

\$224b

Estimated to pass each year in inheritances by 2050²

1. Core Data 2023
2. Vickovich, A, 2021, "Baby Boomers to pass on \$224b a year by 2050", published in The Australian Financial Review on 7 December 2021

Financial Advisers know
their clients' personal
situations better than any
other professional.

More than 80% of inheritance money flows to people aged 50 or older...

Proportion of inheritance money, received by children of the deceased, by age band of recipient.

Notes: In probate data, the age of the recipient is only identifiable for children of the deceased, which represents three quarters of final estate money. Includes only estates where no bequest was made to a spouse. This will almost always correspond to 'final estates'; that is, estates of people without a surviving spouse.
Source: Grattan analysis of probate files, Victoria, 2016. By Grattan Institute.

Building your wealth your way
Legacy is built over time...

Investment bond tax structure and 125% advantage

Investment returns are for illustrative purposes only and do not represent any actual or future performance expectations.

The unique tax advantage

Capital Management - Investment bond can offset realised capital losses against income¹. No tax is paid on unrealised capital gains.

Income Management - Any add backs are passed on directly to investors. E.g. franking credits, respecting the 45 days trading rules, etcetera.

Operational Efficiency - Netting of trades, tax parcelling and corporate actions.

1. Capital gains or losses refer to gains or losses realised on the disposal of a fund's investments which are treated as a revenue gain or loss for tax purposes.

Choose the right building blocks

Comparing different global equity growth managers

13

Passive Factor Exposure

Manager A
Low Turnover – Tax Neutral

Fee	0.20% p.a.
Turnover	10%
Spreads	0.08%

Pre-tax return **8.40% p.a.**

Underperformed the index by 0.20% p.a.

After-tax return **7.10% p.a.**

Tax impact is medium due to low turnover, some tax leakage through investor cashflow and credit leakage

Active manager Strong headline return

Manager B
High turnover, tax credit leakage and capital to income

Fee	0.99% p.a.
Turnover	95%
Spreads	0.20%

Pre-tax return **10.20% p.a.**

Outperformed index by 1.60% p.a.

After-tax return **6.07% p.a.**

Heavy tax impact – poor after-tax return

Tax aware active manager Outperformance on pre and post-tax basis

Manager C
Long term investor, turnover at right time and tax credit aware

Fee	0.62% p.a.
Turnover	30%
Spreads	0.10%

Pre-tax return **9.00% p.a.**

Outperforms index by 0.40% p.a.

Tax Aware Optimisation **8.35% p.a.**

Tax aware manager limits tax leakage and compounds returns for client

Compounding Tax Alpha

Tax Optimised series return over 4 years

Assuming an opening balance of \$250,000. Investment in a trust assumes beneficiaries at 47% marginal tax rate (including levies) and excludes any trust establishment and maintenance cost.

Reducing distributable income within trusts

Trusts

Reducing distributable income within trusts

Investment bonds
do not produce
income or capital
gains distributions

No taxable income
to beneficiaries on
distribution if no
withdrawals in the
first 10 years

Alternative to a
corporate entity -
stop top up tax

Simpler
administration and
compliance, with
no tax reporting

Avoids potential
division 7A issues

Distributable income

No investment bond

Cash & Term deposits	\$1,400,000
Direct property	\$2,400,000
Shares	\$4,400,000
Managed Funds	\$1,800,000
Total	\$10,000,000
Average yield	6.5%
Annual distributable income	\$650,000

With an investment bond

Cash & Term deposits	\$600,000
Direct property	\$2,400,000
Shares	\$1,400,000
Managed Funds	\$600,000
Investment Bond	\$5,000,000
Total	\$10,000,000
Average yield	6.5%
Annual distributable income	\$325,000

Distributions from a Discretionary Trust

Things to consider when using bucket company as a corporate beneficiary...

- Is a tax deferral strategy
- Distribution taxed at 30%
- Top-up tax of up to 24.3% (Not 17%)
- Ongoing costs - establishment/legal, accounting and tax
- No bankruptcy protection

Distributions from a Discretionary Trust owned investment bond after 10 years

The alternative ...

If the Trust holds an investment bond as the investment asset...

1. Maximum tax rate of 30%
2. No distributable income
3. No top-up tax to be paid

Four differences between LifeBuilder tax and bucket companies

Increased tax-efficiency

Investment bond can utilise losses against capital gains

No top-up tax

Tax paid after 10 years

Lower tax when trading assets

Life Company & Mandates provide more tax parcels to help reduce tax

Lower cost and less administration

Simple to administer and potentially lower cost

Investment bond vs company investor

Accumulating more wealth

As at 30 June 2023 (pre fees and costs)

	Investment Bond	Company investor
Investment value after 15 years	\$2,610,756	\$2,397,523
Annualised Return (after tax) p.a.	6.61%	6.00%
Investment bond Tax Alpha p.a.		0.61%

Based on 15 years of ASX200 actual returns and income/growth/franking information. Average effective tax rate of 12.4% p.a. for company investor used over the period. Average effective tax rate of 0.9% p.a. for Generation Life Tax Effective Australian Share Fund over the period. Excludes impact of fees and costs in the respective investment structures. Investment returns are for illustrative purposes only and do not represent any actual or future performance expectations.

Investment Bond vs company shareholder experience

Tax paid vs. tax deferred entity

As at 30 June 2023 (pre fees and costs)

	Investment bond	Company shareholder 47%	Company shareholder 39%
Investment value after 15 years	\$2,610,756	\$2,058,125	\$2,217,842
Accumulation performance p.a.	6.61%	6.00%	6.00%
Withdrawal after tax p.a.	6.61%	4.93%	5.45%
Investment bond Tax Alpha p.a.		1.68%	1.15%

Based on 15 years of ASX200 actual returns and income/growth/franking information. Average effective tax rate of 12.4% p.a. for company investor used over the period. Average effective tax rate of 0.9% p.a. for Generation Life Tax Effective Australian Share Fund over the period. Excludes impact of fees and costs in the respective investment structures. Investment returns are for illustrative purposes only and do not represent any actual or future performance expectations.

Performance comparison of Generation Life Tax Effective Australian Share Fund

As at 30 June 2023

	Headline investment return	Tax Optimised gross after tax return	47% individual MTR after tax return	Company investor after tax return	Tax Optimised after tax return (after fees)
1 Year	14.59%	11.59%	9.25%	11.88%	11.09%
2 Years p.a.	3.51%	2.98%	1.10%	2.03%	2.48%
3 Years p.a.	11.03%	9.38%	7.58%	8.15%	8.88%
4 Years p.a.	6.02%	5.59%	3.98%	4.77%	5.09%

* Headline and individual after tax returns for the comparative fund are based on the performance of an equivalent S&P/ASX 200 Index ETF.

For assumptions, please refer to the Tax Optimised brochure for assumptions: <https://genlife.com.au/tax-optimised-brochure>

Seeking alternative tax-effective structures

Meet Michael and Nicole...

Michael is 55 years old, and Nicole is 49 years old.

Michael and Nicole are:

- Members of the Gen X SMSF
- 3 children aged between 14 and 21
- Employed and receiving superannuation guarantee contributions
- Michael sits on several boards as a Director
- Nicole is working part-time

Michael and Nicole's situation

Michael's situation

Annual assessable income	\$180,000	
Inheritance received	\$250,000	Invested directly into a managed fund

Nicole's situation

Annual income	\$85,000	This excludes SG of \$9,350
Annual assessable income	\$66,850	
Concessional contribution (salary sacrifice)	\$18,150	
Discounted realised gains assessable income from sold investment property	\$242,000	
Adjusted Taxable Income and concessional contributions	\$336,350	DIV. 293 tax of \$4,125

If Michael invested his inheritance directly...

Unexpected investment distribution surprises

31-March	Initial investment	\$250,000
30-Jun	Portfolio value at 30 June (decrease of 8.53%)	\$228,678
1-Jul	Cash distribution	\$27,720
1-Jul	Tax assessable Income (grossed up for franking)	\$31,770
1-Jul	Personal tax payable (47% MTR)	-\$14,931
1-Jul	Total investment value including reinvestment	\$ 217,797
Investors actual return after tax for the period		-12.88%
Quoted fund performance for period		-8.53%

Tax bracket creep

Wage income

\$180,000

39% MTR on incremental income

Investment income from trusts

\$31,770

New taxable income

\$211,770

New tax bracket
47% MTR

Past performance is not an indication of future performance. Investment Performance is net of fund taxes, management fees and other operating expenses (if applicable) and is based on the unit prices for the quoted periods and exclude the affect of any investor specific transactions such as transaction costs, stamp duty and management fee rebates. Direct Investment performance is based on publicly available unit trust prices, distribution details and annual tax components. Individual circumstances have not been taken into account when calculating the direct tax liability applicable to each unique investor.

If Michael invested his inheritance into an investment bond...

Based on an investment of \$250,000 in the iShares Oz Equity Index fund. Average return calculated using tax components and return history of the fund from inception to 31 December 2022. Past performance is not an indication of future performance. Performance is net of fund and fund taxes, management fees and other operating expenses (if applicable) and excludes the effect of any investor specific costs, person taxes on sale of assets or management fee rebates.

Impact of Division 293

As Nicole's Div 293 Income is \$336,350 she is above the \$250,000 threshold.

Division 293 applied to Nicole's low tax contributions

$$\begin{aligned} \text{Division 293 Tax} &= \$27,500 \times 15\% \text{ tax} \\ &= \$4,125 \end{aligned}$$

This \$4,125 is payable to the ATO within 21 day of the assessment notice

Past performance is not an indication of future performance. Investment Performance is net of fund taxes, management fees and other operating expenses (if applicable) and is based on the unit prices for the quoted periods and exclude the affect of any investor specific transactions such as transaction costs, stamp duty and management fee rebates. Direct Investment performance is based on publicly available unit trust prices, distribution details and annual tax components. Individual circumstances have not been taken into account when calculating the direct tax liability applicable to each unique investor.

What if Michael passes away unexpectedly after 10 years

Michael's SMSF held a death and TPD insurance policy.

- Proceeds causes Nicole's super balance to exceed \$3m for a total balance of \$5m
- She would like to also pass on her wealth to her children tax-effectively

Nicole speaks to her financial adviser about other tax-effective alternatives.

An alternative estate planning approach

ATO

PBR 1052091672127

Considerable importance to fund's trust deed and governing rules (SMSF no longer considered a withdrawal but taxable death benefit in the hands of a non-dependant)

PBR 1052123084697

28 weeks for master trust trustee to pay the withdrawal benefit, death occurred after withdrawal request, therefore was treated as death benefit.

Complete Control & Certainty

Insurance Contracts Act section 48A requires entitlements to be paid to nominated beneficiaries.

Why the proposed changes to superannuation?

Objectives of super - Push to codify what super is for

Treasury consultation paper proposes “to preserve savings to deliver income for a **dignified retirement**, alongside government support, **in an equitable and sustainable way**”

Dignified retirement

Enough to get by on comfortably (not to amass wealth)

Equitable

A fair system (progressive tax approach)

Sustainable way

Able to be afforded by Government (large deficit needs to be reigned in)

Nicole invests \$2m in two investment bonds and has \$3m remaining in superannuation

	Alternative strategy			
	\$5m invested under current super rules	\$5m invested under proposed super rules	\$3m invested under proposed super rules	\$2m to commence two investment bonds
Gross value (12 months)	\$5,436,202	\$5,436,238	\$3,261,743	\$2,164,023
Large balance tax (12 months)	-	-\$29,427	-\$3,150	-
Net value (12 months)	\$5,436,202	\$5,406,775	\$3,258,592	\$2,164,023
Net value after 15 years	\$17,726,145	\$15,702,584	\$9,870,884	\$7,853,890
Total net value after 15 years	\$17,726,145	\$15,702,584	\$17,080,077	

Income	4.83% p.a.
Growth	3.62% p.a.
Total Return	8.45% p.a.
Franking level	81.40%

Transferring wealth with certainty

Leaving an inheritance and the challenges of wills

86% of claims are brought by the immediate family

12+ months for a case to be heard in court

88.2% of seniors plan on leaving an inheritance (\$930k on average)

36% of estates go to grandchildren

Source: Generation Life Estate Planning Research by Core Data 2020

74% of estate claims are successful

Successful family provision claims by estate size

Source: UNSW Law Journal, Estate Contestation In Australia: An Empirical Study Of A Year Of Case Law, 2015

Investment bond estate planning benefits

Life insurance contract

A type of life insurance policy which is investment-based governed by the Life Insurance Act

Non-estate asset

Investment bond can be structured as a non-estate asset

Tax-free proceeds

Proceeds on death are paid tax-free even to non-dependants

Automatic transfer

Automatic transfer at specific ages, dates or on death can be selected

No tax reporting

No tax reporting if no withdrawal made in the first 10 years

Avoids conflict

Avoids potential for conflict and solves complex wills

Meet Margo...

Margo is 77 years old.

Margo has 3 adult non-dependant children, Sarah, Jane and Sam.

Margo's three children...

Sarah

- 51 years old and married
- Both on 47% MTR (including Medicare Levy)
- 3 young children
- On track to reach the proposed \$3m super double taxation threshold

Sam

- 46 years old and single
- Not good with money
- No stable job

Jane

- 42 years old and single mum
- Works part time and on 21% MTR (including Medicare Levy)
- 7-year-old twins

Margo's concern...

Sarah

- Confident that Sarah is good with money
- Concerned that her inheritance will burden Sarah with a huge tax liability

Sam

- Concerned that Sam may need income
- However, doesn't want a lump sum transferred due to the potential misuse of the funds

Jane

- Concerned that Jane needs support to help fund her grandchildren's secondary school education

Margo's current financial position ...

Home value	\$2.5m
Cash at bank	\$100,000
Superannuation balance	\$2.1m 50% taxable component (she maximised non-concessional contributions at age 75)
Bank shares	\$175,000 Weighted average price of \$23.00 accumulated between 2006 and 2010
Managed fund investment	\$10,000 Capital loss of \$10,000
Direct Growth ETF	\$20,000 Bought 2 years ago, currently worth \$22,500

Margo seeks financial advice to see how she can help structure her estate according to her wishes and deal with her concerns

Margo to restructure her assets as part of her estate plan...

Home value	\$2.5m	House to be sold on her death and distribute proceeds equally in accordance with the Will
Cash at bank	\$100,000	Remain as cash at bank of \$100,000
Superannuation balance	\$2.1m 50% taxable component (she maximised non-concessional contributions at age 75)	Withdraws \$1.3m from superannuation
Bank shares	\$175,000 Weighted average price of \$23.00 accumulated between 2006 and 2010	Sells shares and ETF due to low asset price and minimises CGT liability
Managed fund investment	\$10,000 Capital loss of \$10,000	Establishes 3 investment bonds from \$1.3m superannuation withdrawal proceeds and the \$200,000 from the sale of her shares and ETF.
Direct Growth ETF	\$20,000 Bought 2 years ago, currently worth \$22,500	

Margo's investment bond structure

#1 Investment bond \$500,000

Sarah

Future event transferee

- Transfer ownership upon death
- Sarah as the new owner
- No re-setting of the 10-year period

#2 Investment bond \$500,000

Sam

Future event transferee

- Transfer ownership upon death
- Set up a future Regular Income Payment until funds run out or the death of Sam
- Sarah becomes the co-signatory to authorise once-off emergency withdrawals

#3 Investment bond \$500,000

Jane

Future event transferee

- Transfer ownership to Jane in 4 years' time
- Set up a future Regular Income Payment for 6 years
- Sarah becomes the co-signatory to authorise once-off emergency withdrawals

Let's look at Margo's investment bond for Sarah...

\$5,000,000
\$4,500,000
\$4,000,000
\$3,500,000
\$3,000,000
\$2,500,000
\$2,000,000
\$1,500,000
\$1,000,000
\$500,000
\$0

Assumption: Assuming an initial investment of \$500,000 with a total annual after-tax investment return of 7.37% p.a. Estimated average fees and costs of 1.47% p.a. over investment term with an effective long-term average investment bond tax rate of 16.10%.

Let's look at Margo's investment bond for Sarah...

Assumption: Assuming an initial investment of \$500,000 with a total annual after-tax investment return of 7.37% p.a. Estimated average fees and costs of 1.47% p.a. over investment term with an effective long-term average investment bond tax rate of 16.10%.

Let's look at Margo's investment bond for Sam...

Assumption: Assuming an initial investment of \$500,000 with a total annual after-tax investment return of 7.37% p.a. Estimated average fees and costs of 1.47% p.a. over investment term with an effective long-term average investment bond tax rate of 16.10%.

As Sarah is the co-signatory to Sam's investment, she is able to authorise once-off withdrawals requested by Sam.

Let's look at Margo's investment bond for Jane...

Jane receives a full tax offset and a surplus tax offset of \$17,455 over the 6 years.

Any withdrawals are tax-paid and any residual amount can be used to set up an estate plan

Assumption: Assuming an initial investment of \$500,000 with a total annual after-tax investment return of 7.37% p.a. Estimated average fees and costs of 1.47% p.a. over investment term with an effective long-term average investment bond tax rate of 16.10%.

Key outcomes...

Automatic transfer
of ownership

Full ownership
before bond is
transferred to
recipient

No impact to
recipient's personal
tax position

Ability for
recipients to set
up an estate plan

Restrictions on
accessing funds

Set up Regular
Income Payments

Co-signatory

Tax offset for
withdrawals
before 10-years

Preserving your wealth to meet your retirement needs

Did you know...

Australia has one of the **highest life expectancies in the world.**¹

Around **one in four Australians** aim to retire between the **age of 60 to 62.**²

Two in five Australians expect to **spend more than they currently do** in the **first years of retirement.**²

1. Australian Institute of Health and Welfare 2023
2. Generation Life – Locking In The Next Generation by Core Data 2023

What is LifeIncome?

Income
guaranteed for life

Ability to have a
loved one as a
Reversionary
Beneficiary

Potential Age
Pension benefits

Choice of
LifeBooster rates
to have a higher
starting income

Meet Frank and Dot

Frank and Dot are both 67 years old.

Both Frank and Dot loves:

- Travelling around Australia and overseas
- Spending time with their grandchildren
- Taking their grandchildren to activities when they can

Frank and Dot's situation

Frank and Dot are homeowners and have:

Franks' superannuation balance	\$500,000
Dots' superannuation balance	\$450,000
Personal assets	\$10,000

Frank and Dot's objective

Frank and Dot would like to...

- Spend more in the earlier years, as they are both healthy
- Concerned that they might run out of money
- Don't want to burden their children with funeral expenses
- Want to leave something to their grandchildren

Frank and Dot speaks to their financial adviser

Frank and Dot's current situation

Assumptions: Account-based-pension drawdown amount is to meet the target income, minimum drawdowns do apply. Income is shown in real dollars. Age Pension rates and thresholds are effective 01/07/2023. Investment returns commencing 1st July 1989. Account-based-pension Investment portfolio consists of a 20% allocation to ASX All Ordinaries, 30% to MSCI World Ex Australia Index, 35% to Bloomberg Global Aggregate Bond Index (AUD Hedged) and 15% to Bloomberg Ausbond Composite Index.

Frank and Dot both establish a LifeIncome and FuneralBond

LifeIncome allocation of 40% of super (\$950,000)

Assumptions: Starting income is based on Frank (67) purchasing LifeIncome with a 5% LifeBooster rate and nominating Dot (67) as a reversionary beneficiary. Account-based-pension drawdown amount is to meet the target income, minimum drawdowns do apply. Income is shown in real dollars. Age pension rates effective 01/07/2023. Investment returns commencing 1st July 1989. Both LifeIncome and Account-based-pension invested in the same portfolio which consists of a 20% allocation to ASX All Ordinaries, 30% to MSCI World Ex Australia Index, 35% to Bloomberg Global Aggregate Bond Index (AUD Hedged) and 15% to Bloomberg Ausbond Composite Index.

Frank and Dot's outcome

Able to spend more in the earlier years of retirement with confidence

Able to potentially have money for their grandchildren

Receive more Age Pension in earlier years

Additional layer of income if their account-based pension runs out

Centrelink treatment of LifeIncome

Means tested asset value

60% of your investment amount. From age 84, only 30% is assessed (subject to a minimum of 5 years)

Means tested income

Only 60% of your LifeIncome annual income

LifeIncome is defined as an 'Asset-tested income stream (lifetime)' product for social security purposes. All decisions regarding social security benefits for individuals who purchase LifeIncome will be made by Centrelink or the Department of Veterans' Affairs officers based on social security law and the circumstances of the individual at the time of claim. Based on current social security law, reducing Age Pension by \$3 for every \$1,000 of assets over lower threshold.

For every \$200,000 invested in LifeIncome

Assessable assets	Reduce by \$80,000
Age Pension uplift*	\$6,240 p.a.
Risk free return*	3.12%

*Assuming eligibility

Forward thinking tomorrow

The information provided is general in nature and does not consider the investment objectives, financial situation or needs of any individual and is not intended to constitute personal financial advice. The product's Product Disclosure Statement (PDS) and Target Market Determination are available at www.genlife.com.au and should be considered in deciding whether to acquire, or continue to hold, the product. Professional financial advice is recommended. The offer made in the PDS is only available to persons receiving the PDS in Australia. Generation Life excludes, to the maximum extent permitted by law, any liability (including negligence) that might arise from this information or any reliance on it. Generation Life does not make any guarantee or representation as to any particular level of investment returns or income, pay back periods or Age Pension entitlements. Past performance is not an indication of future performance.

The Zenith Investment Partners (ABN 27 103 132 672, AFS Licence 226872) ('Zenith') rating (assigned October 2022) referred to in this piece is limited to "General Advice" (s766B Corporations Act 2001) for Wholesale clients only. This advice has been prepared without taking into account the objectives, financial situation or needs of any individual and is subject to change at any time without prior notice. It is not a specific recommendation to purchase, sell or hold the relevant product(s). Investors should seek independent financial advice before making an investment decision and should consider the appropriateness of this advice in light of their own objectives, financial situation and needs. Investors should obtain a copy of, and consider the PDS or offer document before making any decision and refer to the full Zenith Product Assessment available on the Zenith website. Past performance is not an indication of future performance. Zenith usually charges the product issuer, fund manager or related party to conduct Product Assessments. Full details regarding Zenith's methodology, ratings definitions and regulatory compliance are available on our Product Assessments and at <http://www.zenithpartners.com.au/RegulatoryGuidelines> www.zenithpartners.com.au/regulatory-guidelines-funds-research.

The rating issued for Generation Life LifeBuilder, April 2023, is published by Lonsec Research Pty Ltd ABN 11 151 658 561 AFSL 421 445 (Lonsec). Ratings are general advice only, and have been prepared without taking account of your objectives, financial situation or needs. Consider your personal circumstances, read the product disclosure statement and seek independent financial advice before investing. The rating is not a recommendation to purchase, sell or hold any product. Past performance information is not indicative of future performance. Ratings are subject to change without notice and Lonsec assumes no obligation to update. Lonsec uses objective criteria and receives a fee from the Fund Manager. Visit lonsec.com.au for ratings information and to access the full report. © 2022 Lonsec. All rights reserved.

The rating contained in this document is issued by SQM Research Pty Ltd ABN 93 122 592 036 AFSL 421913. SQM Research is an investment research firm that undertakes research on investment products exclusively for its wholesale clients, utilising a proprietary review and star rating system. The SQM Research star rating system is of a general nature and does not take into account the particular circumstances or needs of any specific person. The rating may be subject to change at any time. Only licensed financial advisers may use the SQM Research star rating system in determining whether an investment is appropriate to a person's particular circumstances or needs. You should read the product disclosure statement and consult a licensed financial adviser before making an investment decision in relation to this investment product. SQM Research receives a fee from the Fund Manager for the research and rating of the managed investment scheme.
