## Investment objective

Aims to provide a total return (before tax), consisting of capital appreciation and income, by gaining exposure to a diversified portfolio of securities listed on approved developed markets, and domestic and global fixed interest securities.

## Investment approach

Exposures are adjusted to take into account certain environmental and sustainability impact and social considerations. The fund will seek to target approximately 70% exposure to equities and 30% exposure to fixed interest assets. Normally, the manager will gain some or all of its exposure by investing in other funds managed by it that invest in equity, real estate and fixed interest securities.

## About the investment manager

DFA Australia Limited is the Australian subsidiary of the US-based Dimensional Fund Advisors LP (Dimensional), which was founded in 1981. With clients around the world, Dimensional has 13 offices in nine countries and global assets under management of A\$745 billion as at 30 June 2020. Dimensional manages assets for institutional investors and clients of registered financial advisors. For more than three decades, Dimensional has been combining rigorous academic research with practical experience to deliver real-world investment solutions. Using this approach, Dimensional seeks to deliver investment solutions that add value through careful design, implementation and execution.
