## Investment objective

Aim to generate attractive returns by dynamically investing in global fixed income instruments. The fund aims to provide diversification against equity risk as well as capital growth and some income.

## Investment approach

The fund provides exposure to an actively managed, benchmark unaware and diversified portfolio of fixed income investments such as sovereign bonds and investment grade credit. Generally, exposure will be to fixed rate notes. The duration profile of the fund is actively managed through the use of derivatives such as swaps and futures. The investment process aims to reduce the risk of the fund being adversely affected by expected events of downgrades in the credit rating of the fund's investments.

## About the investment manager

Macquarie Investment Management Global Limited forms part of the Macquarie Asset Management Public Investments, a division in Macquarie Asset Management which is Macquarie Group's asset management business. Macquarie Asset Management Public Investments delivers a full-service offering across a range of asset classes including fixed interest, listed equities (domestic and international), listed real estate securities and infrastructure securities to both institutional and retail clients in Australia and the US, with selective offerings in other regions.
