**IMPORTANT:** The yield forecast represents the estimated yield for the underlying portfolio before fees and tax for the next 12 months and is calculated using the weighted average of broker consensus forecasts of each portfolio holding and research conducted by Martin Curry Investment Management Limited and is gross of fees and taxes. Neither the portfolio yield forecast nor past performance is a guarantee of future results.

### Notes

- <sup>1</sup> Based on the gross asset value of the Fund relating to Wholesale Class A investors in the Fund.
- <sup>2</sup> Past performance is not an indicator of future performance.

### Investment objective

The Fund provides a tax effective investment for the long term and aims to provide regular quarterly payments. The Fund seeks to generate a growing income profile by investing in a diversified portfolio of high-quality companies. The Fund's portfolio aims to generate an income yield above the S&P/ASX 200 Franking Credit Adjusted Index and to grow this income above the rate of 'inflation'.

### Investment approach

The Fund is managed in a tax-aware manner to benefit from franking credits, with the aim of maximising after-tax returns through management strategies employed in the purchase and sale of securities.

The investment manager relies on complementary fundamental and quantitative research, and collective insights into the current investment landscape to identify the most attractive opportunities.

### Performance (after tax and fees)<sup>2</sup>

|                      | Performance % |
