Investment objective

To achieve capital growth through investing in a diversified portfolio of predominantly growth asset classes, with a small proportion of defensive asset classes.

Investment approach

An actively managed diversified portfolio of securities across both growth asset classes such as Australian equities, property and global securities, and defensive asset classes such as cash and fixed interest securities. In general, the portfolio's long-term average exposure will be around 90% growth assets and around 10% defensive assets; however the allocations will be actively managed within the allowable ranges depending on market conditions.
