## Notes

- Investment management costs include investment manager's fees, estimated investment expense recoveries and other indirect investment costs as a percentage of the total average assets of the investment option based on latest available information, but excludes indirect transaction and operational costs.
- Past performance is not an indicator of future performance.
- The administration fee is deducted directly from the investment option before unit prices are declared.

## Investment objective

Aims to provide an income yield above the S&P/ASX 200 Franking Credit Adjusted Annual Total Return Index (before fees and taxes) and to grow this income above the rate of inflation.

## Investment approach

In selecting stocks, the manager focuses on long term normalised earnings and sustainable dividends of highquality Australian companies to deliver an attractive and growing income stream. The fund aims to hold investments so that: exposure to an individual stock is no more than 6% of the portfolio; approximately 45 securities are held; and exposure to an individual sector (as determined by the manager) is no more than 22%. The fund will not invest in securities issued by companies involved in the production or distribution of cluster munitions or the manufacture of tobacco products. The fund does not use derivatives and does not intend to borrow.
