

Fees and costs update

26 February 2026

This document should be read together with the Generation Life Investment Bonds Product Disclosure Statement dated 26 February 2026, Investment Options booklet dated 26 February 2026 and Additional Information Booklet dated 26 February 2026.

Management costs for each investment option

This table provides the current management costs for all investment options (excluding any administration fee discounts that may apply for investment amounts greater than \$50,000). Please refer to the Product Disclosure Statement for further details on fee discounts available on larger balances.

Investment option	Tax aware level	Investment category	Investment management fees and costs (p.a.) ¹	Administration fee (p.a.)	Total estimated management costs (p.a.) ²	Performance fee costs (p.a.) ³

Yarra Enhanced Income Fund	 Tax Enhanced	Diversified fixed interest	0.55%	0.60%	1.15%	N/A

¹ Investment management fees and costs include investment manager's fees, estimated investment expense recoveries and other indirect costs as a percentage of the total average assets of the investment option based on the latest information available but exclude investment performance fee costs that may be charged or incurred by the investment manager and exclude indirect transaction and operational costs (refer to the Product Disclosure Statement for further information about fees and costs).

² Fee is inclusive of the management fee, other management costs and the administration fee based on the latest information available.

³ Performance fee costs are generally based on the average of actual performance fee costs of the investment manager for the respective investment option (other than the Evergreen Responsible Growth Model which reflects an estimate based on the performance fees of the investment option's underlying investments and the expected portfolio of the investment option) incurred over the previous five financial years (or less if the underlying investment strategy has been in operation by the investment manager for a shorter period) and based on the latest information available. However, the actual performance fee payable (if any) will depend on the performance of the investment option and the performance fee estimate provided is not an indicator of future performance fees of the investment option.

⁴ The investment management fees and costs are based on the fund's estimated management fee and costs (excluding indirect costs) of 0.86% p.a. charged on its gross asset value, which equates to a management fee of 1.17% p.a. of the fund's net asset value assuming an average annual gearing level for the direct property and unlisted property assets of 31%. If the average gearing level of the underlying direct property and unlisted property assets in the fund over the year is lower or higher than 31%, the fund's estimated management fee based on net asset value will be respectively lower or higher than 1.17% p.a.

⁵ ClearBridge Emerging Markets Fund will be replaced by the strategy of Pzena Emerging Markets Value Fund, and the investment manager will change from ClearBridge Investments to Pzena Investment Management LLC effective 9 April 2026.

⁶ The investment management fees and costs are based on the fund's management fee (excluding indirect costs) of 0.50% p.a. charged on its gross asset value, which equates to a management fee of 0.91% p.a. of the fund's net asset value assuming an average annual gearing level of 45%. If the average gearing level in the fund over the year is lower or higher than 45%, the fund's management fee based on net asset value will be respectively lower or higher than 0.91% p.a.

⁷ The administration fee is based on the value of the investment option's assets excluding the value of any borrowings.

⁸ The investment management fees and costs are based on the fund's management fee (excluding indirect costs) of 0.09% p.a. charged on its gross asset value, which equates to a management fee of 0.16% p.a. of the fund's net asset value assuming an average annual gearing level of 45%. If the average gearing level in the fund over the year is lower or higher than 45%, the fund's management fee based on net asset value will be respectively lower or higher than 0.16% p.a.

⁹ Magellan Global Portfolio will be replaced by the strategy of L1 Capital International Portfolio, and the investment manager will change from Magellan Asset Management Limited to L1 Capital International Pty Ltd effective 9 April 2026.

¹⁰ Magellan Infrastructure Portfolio will be replaced by the strategy of ATLAS Infrastructure Global Portfolio (Hedged), and the investment manager will change from Magellan Asset Management Limited to ATLAS Infrastructure (Australia) Pty Ltd effective 9 April 2026.

¹¹ The investment management fees and costs are based on the fund's management fee (excluding indirect costs) of 1.17% p.a. charged on its gross asset value, which equates to a management fee of 2.34% p.a. of the fund's net asset value assuming an average annual gearing level of 50%. If the average gearing level in the fund over the year is lower or higher than 50%, the fund's management fee based on net asset value will be respectively lower or higher than 2.34% p.a.

¹² Stewart Investors Worldwide All Cap Fund will be replaced by the strategy of Mirova Global Sustainable Equity Fund, and the investment manager will change from Stewart Investors to Mirova US LLC effective 9 April 2026.
