## Investment objective

To achieve a moderate amount of capital growth along with some income, by investing in a diversified portfolio of growth and defensive asset classes.

## Investment approach

An actively managed diversified portfolio of securities across both growth asset classes such as Australian equities, property and global securities, and defensive asset classes such as cash and fixed interest securities. In general, the portfolio's long-term average exposure will be around 50% growth assets and around 50% defensive assets; however the allocations will be actively managed within the allowable ranges depending on market conditions.
