Recent investment management history

The Magellan Infrastructure Portfolio will be replaced by the ATLAS Infrastructure Global Portfolio (Hedged), and the investment manager will change from Magellan Asset Management Limited to ATLAS Infrastructure (Australia) Pty Ltd, effective 9 April 2026.

Notes

- Investment management costs include investment manager's fees, estimated investment expense recoveries and other indirect costs as a percentage of the total average assets of the investment option based on latest available information, but excludes investment performance fee costs that may be charged or incurred by the investment manager and exclude indirect transaction and operational costs (refer to the Product Disclosure Statement for further information about fees and costs).
- Past performance is not an indicator of future performance.
- The administration fee is deducted directly from the investment option before unit prices are declared.

Investment objective

The primary objective is to achieve attractive risk adjusted returns over the medium to long term, while reducing the risk of permanent capital loss through investment in a portfolio of companies that meet the manager's definition of infrastructure.

Investment approach

The manager will invest in companies that generate the dominant part of their earnings from the ownership of infrastructure assets. The manager endeavours to acquire these companies at discounts to their assessed intrinsic value. The manager anticipates that the portfolio will comprise 20 to 40 investments. It believes such a portfolio will achieve sufficient diversification to ensure the fund is not overly correlated to a single company or to macroeconomic risks. The fund typically, invests in companies with a market capitalisation of less than US\$1 billion and will not exceed more than 20% of the fund's portfolio in aggregate. It is the manager's intention to substantially hedge the capital component of the foreign currency exposure of the fund arising from investments in overseas markets back to Australian Dollars.
