Notes

^{1.} Investment management costs include investment manager's fees, estimated investment expense recoveries and other indirect costs as a percentage of the total average assets of the investment option based on latest available information, but excludes investment performance fee costs that may be charged or incurred by the investment manager and exclude indirect transaction and operational costs (refer to the Product Disclosure Statement for further information about fees and costs).

^{2.} Past performance is not an indicator of future performance.

Investment objective

Aim to generate attractive returns by dynamically investing in global fixed income instruments. The fund aims to provide diversification against equity risk as well as capital growth and some income.

Investment approach

The fund provides exposure to an actively managed, benchmark unaware and diversified portfolio of fixed income investments such as sovereign bonds and investment grade credit. The fund may also provide exposure to other fixed income sectors such as high yield and emerging markets debt when these are expected to outperform. Generally, exposure will be to fixed rates notes. The duration profile of the fund is actively managed through the use of derivatives such as swaps and futures. The investment process aims to reduce the risk of the fund being adversely affected by unexpected events or downgrades in the credit rating of the fund's investments.

About the investment manager

Macquarie Investment Management Global Limited forms part of Macquarie Asset Management, which is Macquarie Group's asset management business. Macquarie Asset Management is an integrated asset manager across public and private markets offering a diverse range of capabilities including real assets, real estate, credit, and equities and multi-asset.
